

# Zerocat Mini Machine

## Fundraising Campaign '23

Handout as of 2023-07-01

Zerocat Mini Machine is an artistic approach to create a mobile, word processing device of supreme integrity.

The device is optimized for audits and inspections. Its design is free licensed, even down to chip level. Its chassis can be unfolded to ease user's search for secretly injected, unwanted, spying hardware.

Fundraising started on 31st of May 2023.

**Your support is now needed** to launch a high quality application for public funding on 1st of August 2023.

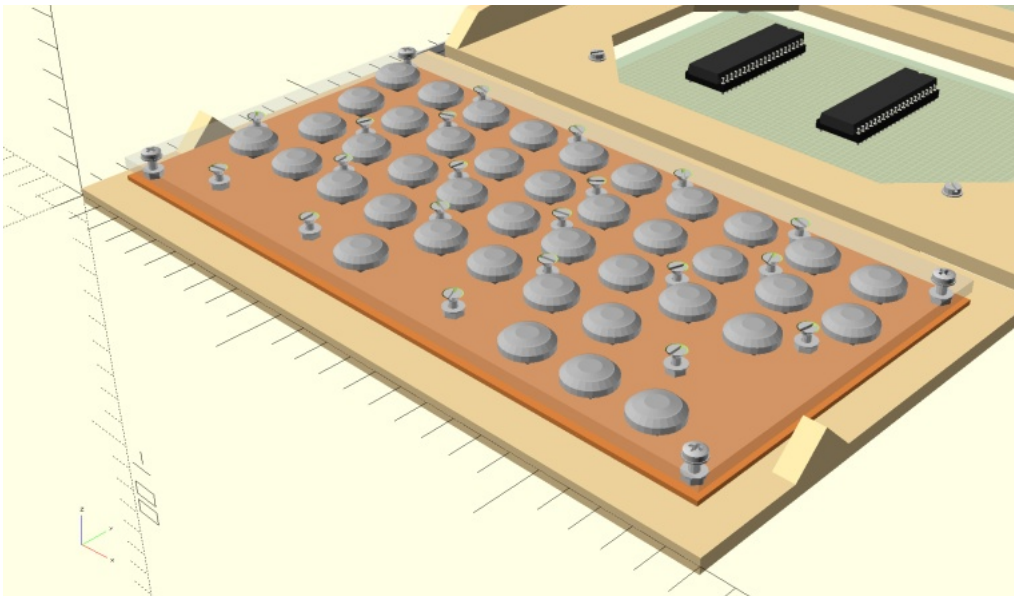

See fundraising page on: <http://www.zerocat.org/>

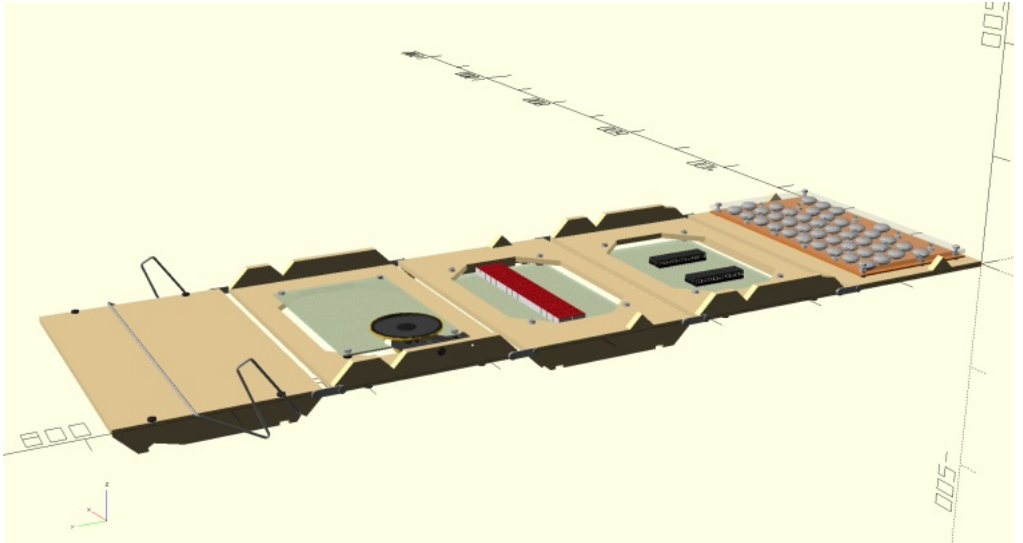

ZeroCat Mini Machine, set up for operation.

Chassis unfolded, ready for user's inspection.

Transparent keyboard, no bug, no keylogger.

Hardware of a free design, even down to chip level.

Go ahead, fund the project. Join the future community!
